- JS: Vue, React, Angular, Ember, Node, Meteor, Cypress.
- CSS3: SASS, Bootstrap, Tailwind, Material.
- MySQL, PostgreSQL, Redis, RabbitMQ, GraphQL.
- Python, Flask, FastAPI, Ruby on Rails.
- Linux servers, Docker, AWS, Android SDK.

EXPERIENCE

Senior Full-Stack Engineer / Freelance / Remote / 05/2021 – Present

- Consulted for over 10 SMEs from Europe and the US, delivering comprehensive full-stack development solutions.
- Extended a custom e-commerce platform by integrating a micro-service architecture comprising 5 distinct applications.
- Maintained 2 learning management systems and a web catalog for 3 diverse clients.

Skills: Laravel, PostgreSQL, Python, Vue3, React, Tailwind, UI/UX, WebSockets, Docker, Cypress, GraphQL, AWS.

Senior / Lead Software Engineer / PacketFabric / Culver City, CA / 04/2020 – 04/2021

- Transitioned the existing micro-services architecture to accommodate a new billing system across 5+ code repositories.
- Earned a promotion to Lead Software Engineer within 6 months.

Skills: Vue, Bootstrap, Python, PHP, PostgreSQL, Micro-services architecture, REST, Redis, RabbitMQ, Docker.

Senior Full-Stack Engineer / Frode Fjellberg AS / Oslo, Norway / 11/2019 – 03/2020

- Developed a bespoke e-commerce platform for MyOrder.no, a Norwegian retailer specializing in printed materials.
- Implemented an automated testing suite covering 95% of the codebase.

Skills: Laravel, MySQL, Vue, Tailwind, Python, UI/UX, Dusk, Docker, CI/CD Pipelines.

Senior Full-Stack Engineer / CauseLabs / Fort Worth, TX / 07/2015 – 10/2019

- Led the development and maintenance of 7+ projects for US-based non-profit organizations.
- Delivered a custom learning management system within 4 months as the lead developer in a team of 3 members.

Skills: Laravel, MySQL, React, Vue, Angular, Meteor, Node, MongoDB, Bootstrap, Ruby on Rails, Behat, Cypress, AWS, Linux, Docker, CI/CD Pipelines.

Full-Stack Engineer / Freelance / Lausanne, Switzerland / 10/2014 – 06/2015

Contracted by 2 clients: TravelBytes, an Australian startup offering business travel management solutions, and Terracor, a Canadian e-commerce provider.

Skills: Angular, PHP, MySQL, Bootstrap, UI/UX, Docker, Google Cloud Engine.

Front-End Software Engineer / BugBuster SA / Lausanne, Switzerland / 02/2014 – 09/2014

- Redesigned the user interface according to modern best practices, doubling user adoption and retention rates.
- Developed a Chrome extension to record user actions as replayable test cases.

Skills: UI/UX Design, Ember, Bootstrap, Node, Meteor, MongoDB, AWS, Chrome Extensions.

Front-End Engineer / Genius Inside SA / Lausanne, Switzerland / 03/2011 – 09/2012

- Refactored the front-end architecture of the Genius Project platform, reducing loading times by a factor of 5.
- Played a key role in redesigning the software architecture of a live application serving over 1000 clients.
- Coordinated remotely a team of 4 engineers within a SCRUM framework.

Skills: Dojo, jQuery, Mootools, NPM, Webpack, CSS3, IBM Lotus Notes, Android SDK.

Back-End Engineer / Eegoes / Vevey, Switzerland / 10/2010 – 01/2011

Created an MVC framework for a social media startup, achieving loading times up to 10 times faster than existing solutions.

Skills: PHP, CakePHP, Yii, CodeIgniter, MySQL, Linux.

Back-End Web Developer / Sensorscope Sarl / Lausanne, Switzerland / 01/2009 – 09/2010

- Led development for a meteorological monitoring application, providing live data from over 100 stations (Climaps).
- Designed and optimized a database to handle 10 million new data records per month.

Skills: CodeIgniter, MySQL, E/R design, CSS3, jQuery, Dojo.
